20 Hillcrest HS	1	5	6	4	5	6	6	6	5	6	4	5.30	Just being able to learn sign language and maybe see what it is like for deaf people. Not having the teacher right in the room. Because it is very cool to learn about the deaf culture and learn to speak it. Mostly because of the fact I learn better if I have the teacher here being able to have face to face conversations. The teacher is great.
2006-2007	2	4	5	5	6	4	5	5	6	5	4	4.90	I think Mrs. Bolton is a great teacher and I love learning sign language. 	12	5	5	6	5	5	5	6	6	5	1	4.90	I love learning ASL and Mrs. Bolton at Copper Hills is very funny and entertaining. Our facilitator seems to have a hard time and is extremely unfair. I like ASL but our facilitator is really bad. ASL with another facilitator would be best. I think our facilitator needs to actually know ASL and be nicer and know the equipment.
	13	4	4	3	4	6	5	6	5	5	2	4.40	I like learning a new way of speaking to each other. It's kind of disorganized. We sit in our class for half an hour, wait until the other school starts, then they leave and we set for another half hour until our class is over. Although I am learning, it isn't a very productive environment. It's almost full chaos, everyone in the class doesn't like the facilitator. I don't really like the class, the teacher doesn't have control of the class.
	14	4	6	6	4	6	4	6	6	5	3	5.00	Signing things. Getting up and signing in front of people. Because it's fun. I don't know. Get a new facilitator.
	15	5	4	6	4	2	6	6	6	3	1	4.30	I liked how often we reviewed our vocabulary lists and how we went over it on a worksheet to help with memorization. I don't like the facilitator. We have to wait 30 minutes and then get cut off short. Our facilitator does not know sign language. Our teacher goes off on random tangents. And I don't like working with other people. Because it's a fun language. But we don't have a teacher in the class to help us out so it is difficult at times. Because the teacher is on a different time schedule. I don't like the facilitator. I don't like watching the TV and I don't like not having a teacher readily available. Put a real teacher in our class that knows what they are doing and how to use modern technology.
20 Hillcrest HS	16	4	4	3	3	3	3	4	4	2	2	3.20	Learning sign language. I don't like the facilitator!!! Because they would be able to fill their language credit and they will learn sign language. To fill up my language credit.

	19	5	5	6	6	4	6	6	6	5	3	5.20	We learn a lot in a little amount of time. We get enough time in class to finish the assignments, never any homework!! That if we need help we can't be one on one w/the teacher. We don't get the whole class period to learn cuz we lose the satellite connection. It's a fun class and you do learn a lot in little time. Well, it kind depends cuz I do like having the teacher right in the classroom. I can learn better and if I have questions she/he is right there. I think the fcilitator needs to know some sign language, ours has no idea what she is doing.

Alpine Sch District	17	6	5	6	6	6	5	5	6	6	6	5.70	The cool movies of the tall - short people. I liked learning about. I liked the movies of sleepwalking and the movies w/the color characters, yellow, red, blue and white people. I liked all the movies (most of them) It was a fun course. The boring movie w/the guy that talks slow about remembering and memory. Long study papers w/out a movie. It is very interesting learning of things human have and it is really intertaining because of the movies and I like the teacher. This class is TIGHT, not loose.

PHYS 1000	3	5	6	6	6	6	6	6	6	6	6	5.90	The way this class is set up has really helped me learn the most. Everything we need to know is told with lecture, and the assignments provide extra thought and practice. I really like the way this class is set up. Sometimes we have assignments due before we have covered the material. This is a great science class because you learn 3 different types of science and you go deep enough into each topic. Also, everything is straightforward - you can learn a lot. It doesn't seem any different. I think Dan Black is one of the best science teachers I've had.
	4	5	6	6	6	6	5	6	6	6	6	5.80	It's easy to ask questions and get answers. The environment was friendly and the instructor cared about the subjects taught and wanted us to learn. The tests covered so much information. It's a good course that covers many areas of science. Good for someone who is not a science major because I can understand it. It was a good class.
SNOW	5	5	5	5	5	5	4	5	6	6	5	5.10	I have learned a lot about basic science that will help me in life. It is hard being in an Ednet setting. Class involvement is tough. It helps those who may not be a science major understanding the basics of science. It is a good way to draw on resources outside of the campus.
	6	5	5	4	5	5	6	5	6	6	5	5.20	How entertaining it is and how physical things are brought into show what is being talked about. 	7	5	5	5	4	5	5	6	6	6	4	5.10	The examples and experiments performed in class. Nothing really, it has been a good experience and nothing has stood out that I don't like. It's fairly easy and fun. It's interesting an fun to have a whole lot of people involved in the class.
	8	4	5	6	4	5	4	5	6	6	5	5.00	I liked the visual aids. I liked being able to see things. It really got my attention. Nothing really. This is one of the first science classes I have liked. It is very ell taught. I have taken one before this one where the teacher was not in my classroom and liked it.
	9	6	6	6	6	6	5	6	6	6	6	5.90	The three topics we are covering instead of just one. It gets boring sometimes - it's hard to take notes. It's easier than a regular science class but hard enough that you learn something. They're kind of fun.
38 Snow Ednet	10	6	6	6	6	6	6	6	6	6	6	6.00	Everything the material covered, setup of the class functions, speed taken on material and explanations are perfect. 14. didn't interfere. 2006-2007	11	5	6	6	6	6	6	6	6	6	6	5.90	The teacher, he is really funny and he makes science fun and I didn't think that was possible. The fact that it was science I had to learn. The teacher is really great.
PHYS 1000	12	6	6	6	6	6	4	6	6	6	6	5.80	The different parts of science we've discussed in class, they're all interesting to me. Nothing. Because Dan Black teaches it clearly and it makes sense when he teaches.

2006-2007	2	4	5	5	5	5	4	3	5	5	5	4.60	The information taught. The kids that sleep and don't participate at Juab. It's interesting and nice to learn about. It's not that big of a deal.
CJ 1010	3	6	6	6	5	5	5	5	5	4	5	5.20	Classroom discussion. I always fell asleep in the movies. If they are interested in our nation they should take it. It is neat to have opinions from students in remote locations.
	4	4	5	6	4	5	5	5	4	6	5	4.90	it's something that has always interested me and it's a prerequisite for my major. Nothing. Because it's a great course if your major is in criminal justice. I didn't have a problem w/it.
SNOW	5	5	5	5	5	5	5	4	5	5	5	4.90	I had the opportunity to learn in more detail about our criminal justice system. The amount of information is a little overwhelming, but that could be a good thing. You learn a lot of stuff you wouldn't know without taking this course. I learned a lot. It was a good class.

	7	5	5	6	5	6	6	5	6	6	6	5.60	The teacher is excellent, we are taught certain things and then he shows us how it applys from his own personal experiences in law enforcement. It's hard for the teacher to really focus because he has to pay attention to 2 classes that are at different locations. I just don't like how hard it is to learn when he is trying to focus on people clear out in Juab. Ednet is not a good idea, it puts a strain on both teacher and students. Because I think Ednet is a bad idea, it places unnecessary strain/stress on both the teachers and studentss. 14. same reason
	8	5	5	6	4	5	5	4	6	4	5	4.90	I liked watching the movies on murderers and executions. Having to push the button everytime we want to speak. Fun and teaches you a lot about our criminal justice system. They are good and fun.

I also appreciate that we don't have to pay tuition to attend Ednet classes, it is also helpful as we get college and high school credit for attending. I disliked the tests. The problems on the test were very difficult even though I did my assignments and understood the concepts behind them. 77 Whitehorse HS	1	5	6	6	5	6	6	6	6	6	6	5.80	It got me to really think about government and the way that it has affected us as U.S. citizens. I didn't like it that. . . Well it was just hard to keep up with the readings. Because it helps others realize the importance of government. Yes, because I enjoy taking them. None.
2006-2007	2	5	6	6	6	6	6	6	5	6	6	5.80	I have enjoyed this class, mostly writing the issue papers. Because I state my voice, my political mind into today's government news. n/a. Mainly because this course teaches you about the political needs based on our country. As Americans we need to know about politics because our voice or ideas is what runs this country. I believe by taking more of these Ednet classes, I'm gaining more knowledge and benefiting myself.

78 Mon Valley HS	1	5	6	5	6	6	3	4	6	6	6	5.30	I have liked the way we discuss about government like you usually discuss everything. I liked doing the issue papers too. The least thing I liked about this course is having to do your issue paper every week. Because it is very helpful and easy to understand. I want to have some classes.
2006-2007	2	5	5	5	5	4	5	6	6	6	5	5.20	Well, I liked the information, it makes me understand more about our government. Well, it's a lot of talking and we mostly have to wait for him to let us speak. It's not that cool if it's not in person. It's a good class. Cause it's like a real class. Well, has a good teacher.

79 Whitehorse HS	1	4	6	6	6	6	4	5	6	6	6	5.50	The thing I liked most about this class was the material learned and how the instructor made it fun for the students. The thing I did not like about this class is not being able to talk to instructor over the microphone because he keeps talking. Because the instructor goes through material thoroughly while still making it fun for you. I would take another class because I can attend without having to travel 30 min. out of town.
2006-2007	2	5	6	6	6	6	6	6	6	6	6	5.90	It opened my eyes (a little wider) It slips my mind more than ever about the reality of chemistry. The course was good, I enjoyed it. From CEU Blanding	21	6	6	6	6	6	6	6	6	6	6	6.00	It has been educational to learn more about the government and he clarified so that I can understand. Nothing, it was all very good. It's a very organized and focused. There great. Thank you , it was awesome.
	22	6	5	6	6	6	4	6	6	6	6	5.70	I am learning a lot about government (history). I like everything about class. You learn a lot. (I did) It makes it hard.
	23	5	6	6	6	6	6	6	6	6	6	5.90	The open note, open book tests. How early in the morning it is. It is an easy class to understand because Dr. Larson is clear in what he expects. I am graduating. It's been real. Thank you.

What I liked least about this course was that there was a lot of homework that had to be done. This course will challenge you to do your work and also I learn a lot in this course. Ednet classes are very challenging to me and make me work at my best. This course was very challenging and made me work hard. Was a very good class.

89 Mon Valley FLC	1	4	5	5	5	4	5	4	5	5	3	4.50	Giving us a chance to pass this class by going back. Extra problems and explanations in every section. Slowing down the second time around. Lectures are too fast, and sometimes the sections covered are too fast. For yes, they have to take this course to get their associates, and for no, it may be better to take it in Blanding. Most classes here are Ednet. Taking math 1050 is a little hard taking it over the Ednet, I think it may be clearer on site (campus).

Too fast, need a lot of studying time and you would need a computer at home fast internet connection and graphing calculator need to spend hours on the computer doing assignments. Tutor always hear on old timing hard to catch. Because there are no other options there are no live teachers available at this site and teachers hate to travel. 	4	6	6	6	6	6	6	6	6	6	6	6.00	Very interesting subject, makes it fun. N/A. puts very technical information into everyday language and makes it a lot of fun! He uses visual aids and common items for clarity. Gas prices and less distractions, I feel I get the same information via Ednet as I would if I sat in the actual classroom. Sometimes the connection gets dropped early! I have missed the solutions to equations more than once! Maybe run the connection over by 5 min. No other courses are running Ednet at that time anyway!

91 Mont Creek FLC	1	6	6	6	6	6	6	1	4	4	4	4.90	I liked the lectures the most. N/A. Attending classes in Blanding is very helpful. The syllabus and homework handouts are self explanatory on what work one's suppose to be doing and know what chapter we're on. Students don't pay attention in class compared to being in clas in Blanding, especially on quizz and test days. I attend Ednet classes only if I have to.
2006-2007	2	5	6	5	4	4	5	5	5	5	5	4.90	That we do experiments and that we have a fun time learning. Nothing. Because you need it for a requirement and plus it makes you think. Because it fits in my time and that you can learn better.

We weren't really able to interact with the professor, and that made it hard to pay attention, especially considering this topic. To be in today's world you need to know how to survive in it, this course gives you an insight to politics and today's goings on. I want to take advantage of as much college as possible. 96 Juab HS	1	5	6	5	5	5	4	5	5	4	5	4.90	I liked the professors humor. I liked the grading system. It's a fun class. I like these classes.
2006-2007	2	6	4	3	5	6	1	5	6	5	6	4.70	The American voice stories in the book. Extra credit quizzes. Reading and the professor. If they read it, it is passable, but it is annoying and hard to study. Because it gives me better credits for class. The professor was unfair, he did not let the Volleyball players make up the quiz when we left for state. I think he needs to be aware that we are in high school. I think everyone should get excused for stuff like that or no one at all.
HIST 1700	3	5	5	6	3	6	2	5	4	5	4	4.50	The lectures are interesting and entertaining. How he goes off talking about politics all the time. This course is very interesting and teaches you not only what happened in the past, but why and how it did. Ednet is a good system that allows you to really depend on yourself to succeed.
	4	5	6	5	5	5	2	3	6	4	5	4.60	It has lots of space in the little theater. I've learned a lot more about things I didn't understand before about history. There are really hard quizzes and lots of reading. A lot to learn and remember. Because you learn a lot and it counts as college credit. Because it will help me in college.
From UVSC	5	6	6	6	6	6	3	4	6	5	6	5.40	I've really enjoyed learning about the history of our nation. It has been immensely interesting and I've learned things about American history that have blown my mind away. The reading has been rigorous, but it had to be done to do well in the class. It takes discipline and hard work, but it is a wonderful class where a lot of knowledge can be obtained. They're challenging. Prof. Fish did an excellent job of teaching the material.
	6	4	6	2	3	5	1	3	4	5	6	3.90	Learning more about WWII. Talking about all the politicians through history instead of the history. If you have a lot of spare time all the time then go ahead but it takes a lot of time to do really good in this class. I like not having class everyday and I like getting my generals out of the way.
	7	4	6	4	4	5	2	5	5	4	5	4.40	I liked learning about recent history and presidents. I didn't like learning about the Indians. Because although it is hard, it gives you college credit, it's only Mon., Wed., and Friday and it ends second quarter. It's not a full year class. Because they are much easier if you take them here instead of in college. They are also tons cheaper. The reading is too much. The quizzes should be more spread out if we are expected to do well because there is just too much information to memorize in such a short time.

	8	4	5	2	3	2	2	2	3	1	3	2.70	I have learned a lot about the presidents and what each of them did for our country. On the quizzes, he asks ridiculous questions and is very inconsistent in implying what he expects us to remember for quizzes each day. I would only recommend it to seniors who don't have many after school activities so they can study around the clock. Because it's cheap and easy college credit. I strongly recommend to find another professor. Anything I really learned I learned from reading, nothing from him.
96 Juab HS	9	6	6	6	6	6	1	1	5	6	6	4.90	I liked the fact that we actually learned about American history. There was nothing that I really didn't enjoy about this course. It is an interesting course. I want the cheap college credit.
2006-2007	10	3	4	2	2	3	1	3	4	4	3	2.90	2. Some quiz questions asked little unimportant details. Because you hardly learn anything when he skips around all over. He does make you understand situations but the unimportant ones. Because I want to go to college.
HIST 1700	11	5	5	6	4	5	4	5	6	5	5	5.00	Learning interesting facts and only having it every other day. Reading the text book. It's a good alternative to high school history courses. To get credit for both high school and college.
	12	5	5	5	5	4	2	3	5	3	5	4.20	Learning and reading about the wars. All of the quizzes. They will struggle to keep up. You can fall behind easily. It's cheaper in high school.
From UVSC	13	4	5	6	4	6	4	5	6	6	5	5.10	The lectures are interesting. I didn't like how it was a different chapter every day. Because if you do your homework and read you can easily pass. Because it is cheaper than college and I need the credit.
	14	5	6	4	5	5	4	2	5	5	5	4.60	I liked having the class only 3 days a week and have the 2 days off. I also liked learning about the wars. I have not liked all of the reading. Because it is easy to pass if you do what your supposed to and you get a whole years credit in half a year. Because you get more credit than the normal high school takes.
	15	5	6	6	6	5	4	3	6	6	6	5.30	The interesting Nixon resignation. So much studying. It's interesting and not very hard. I had a good experience. I wish I would have studied.
	16	4	6	4	4	6	5	5	5	6	5	5.00	The interesting facts of history. The many quizzes. Because it is college credit. It is college credit.
96 Juab HS	17	5	5	4	4	5	5	3	5	5	5	4.60	I have learned a lot about American history and when people talk about it I know what is going on. There were a lot of quizzes that were fairly hard. It teaches you about America but is hard. I get more credit for one class.
2006-2007	18	4	5	5	5	5	3	3	5	5	5	4.50	Not having it every day. How long the reading is. To get college credit and get done. Because I like having it in high school so I can get credit for college and not have to pay for it.
HIST 1700	19	4	5	5	2	4	2	2	4	3	2	3.30	I have liked listening to prof. Fish's entertaining lectures. The quizzes! And I also disliked how the quizzes and lectures seemed to be one step behind each other. Because I learned things about our history I've never been sur of. Because it's a good way to gain credit. This class was so hard!
	20	4	5	5	5	3	3	3	3	4	2	3.70	The entertaining lectures. The quizzes and reading chapters. It's a good class to learn history from. It's cheaper to take them in high school.
From UVSC	21	4	6	5	4	2	4	2	6	5	1	3.90	The information I have learned. The quizzes/lectures. It is good to know, but hard in high school. I want college credit.
	22	4	4	4	5	5	6	4	4	4	6	4.60	Extra credit quizzes. Quizzes, all the reading. Yes if they have time to read and study and no if they don't have a lot of time. So I can get college credit and high school credit at the same time. Prof. Fish is kind of a jerk.
	23	4	5	4	5	6	2	2	4	4	4	4.00	Taught things I didn't even know about most things in history. Reading, because the book is hard to follow. You learn a lot about the world's history. To learn.
96 Juab HS	24	4	5	5	5	5	4	6	6	6	6	5.20	Learning in detail about history. The reading and having quizzes every day. Because even though it's a difficult class you learn a lot. So that I can get high school and college credit.
2006-2007	25	5	5	5	6	5	4	4	5	5	5	4.90	Learning so many interesting things about America. I pick up more on things people say. Having to know so much for the exam and not knowing exactly what to study. You learn a lot of things you should know about American history. I seem to be able to learn a lot more stuff in a short amount of time.
HIST 1700	26	6	5	3	5	6	1	1	6	2	6	4.10	There is a lot of information to learn and sometimes it was really interesting. There is so much reading which sucks. Cause you can get it done in high school and this class really does help prepare you for college. Because it's cheap in high school and helps prepare you for college. The extra credit quizzes are a really good idea without them hardly anyone would get even a decent grade and the teacher should be more understanding.

	28	5	6	2	5	5	1	1	3	2	6	3.60	The American voices stories in the book. Reading 4 the discussions. Because the professor only talks, doesn't really teach you. You learn yourself by reading. Because I think it's good to get done with college. Professor Fish is mean.
	30	5	5	5	5	5	4	5	5	5	4	4.80	All the stories he tells. It's just hard to ketch up if you fall behind. To get your history out of the way. To get college classes over with.
	31	3	5	4	3	4	3	4	5	2	5	3.80	That it has a set schedule. The only professor and that we had a quiz every day. The reading was the least. Because he's a good learning class altho you learn it mostly on your own. Because of how it is and easy and convenient it is for high school students.

	40	4	6	4	4	5	3	3	5	4	5	4.30	I liked having the extra credit quizzes. I hated having constant quizzes every day. If they are willing to put time into reading every night. So I can get more college classes done while I am in high school.
	41	4	5	6	6	4	4	4	5	6	5	4.90	I loved everything, well, almost everything, I just love history and I loved this class. All the reading, it was very stressful. It has been expensive to replace the ink for the printers. It is a very interesting field and the professor does a really good job at teaching the material. 106 Cyprus HS	1	5	4	4	5	5	5	3	5	5	6	4.70	I liked that we all go threw different schools we can get to know other people. That not a lot of people like cyprus so we get ignored some times and we need to do a little more hands on things. Because it si somewhat helpful in life it might make some peoples lives a little better or some alot better. it is good help in life but it would be better if it was in person not on TV but TV is a good idea so I don't really know.
2006-2007	2	5	6	5	6	4	4	1	5	4	6	6.00	I enjoy reading the text book. Everything else. I personally feel like the course isn't worth the credit. The instructor cared only for Olympus and hunter, and I felt no point in trying to get his attention when he doesn't try either. Psy 1730's material wasn't entirely worthwhile. I did enjoy a few tidbits, but mostly I have done the minimum requirements simply because the course isn't challenging.
PSYC 1730	3	5	6	5	4	5	5	3	6	4	6	4.90	I liked learning about my learning techniques because it makes me realize what things I need to improve on. I think the due dates should be more spread apart so we have more time to do homework and learn the materal better. Because it may help everyone learn better in all their classes and everyday life. I like having college classes becuse it prepares me to go.

That it's always Cyprus and we miss out on a lot and we get looked down on, our schedules are different. Because I've come to explore new ways and learn more about myself and it can help others too. Because I don't really think it's that great and I'm not really into it, but to get my credits. Everyboso looks down on Cyprus and we worked hard to try to prove them wrong. 116 Morgan HS	1	3	3	5	3	5	3	4	4	3	5	3.80	2. She never fully answered our questions, especially about evolution. The professor didn't appear to know the material well. If she did, she couldn't teach it as well. I like the challenge.
2006-2007	2	4	5	5	5	5	3	5		5	5	4.67	I enjoy the take home tests because I learn more by understanding the questions. Doing power points every day. It helps me understand better about life. They are a great way to learn and get college.

	6	4	6	4	3	5	4	5	6	4	6	4.70	We watched many interesting movies and discussed interesting information about all functions. The professor doesn't seem to know a lot about the subject and gives strange uninformative answers. I would recommend taking human biology and fun AP biology to get the college credit. This professor is confused. College credit.
	7	6	6	5	5	5	5	4	6	6	3	5.10	That everythings on the internet. The tests are way long. Because I liked it. Because I like getting college credit.
	8	4	4	3	3	3	4	5	5	5	5	4.10	Time. Instructors personality. All the power points and not answering our questions straight. Not all info covered adequately. It's ok, but not very in depth or info covered well. To accire (sp) my As. Degree
	9	3	2	4	3	3	2	2	1	5	6	3.10	How she reviews for the tests & quizzes. SO BORING!!! Yes because you need to take Biology, but no because it was REALLY boring. She would just read slides all the time. Good opportunity. Tell the teacher to make the class more involved and to not just read from a power point.
	10	5	6	5	5	5	5	6	6	6	6	5.50	Take home tests. Power points being boring. Only if you are interested in biology. College credit.

BIO 1010	16	4	5	4	5	5	4	5	4	5	6	4.70	I like some of the material. The professor uses too much Power Point and it' easier to learn if we have more discussions and class interaction. It is a good class, and a great opportunity.
	17	5	5	5	5	6	5	5	5	4	5	5.00	I think the instructor did really well and taught pretty well. Some things I didn't understand weren't explained in a lot of depth. It was very helpful in understanding the basics of biology. I'm working to getting my Associates degree. I think repetition in course material would help.
From USU-Roosevelt	18	4	4	4	4	6	5	5	6	3	6	4.70	The hours and the subject. The instructor seems to flip-flop on subject taught. Easier than AP Biology, same credit. Concurrent enrollment for free.

From USU-Roosevelt	5	4	6	4	4	6	3	5	6	6	5	4.90	That Wheeler drops are 3 worst assignments b/c he understands we all have bad days and sometimes we don't understand. That did not teach as well as he did first semester. Because it helps you prepare for college and saves you money! So I can get ahead and start into my major right away and save money. It is a good program that can really help a student get ahead in life and become something to achieve their dreams!
	6	5	5	4	5	5	5	5	5	5	2	4.60	I have liked learning about everything, math has helped a lot. I don't like the tests, they are really hard. I feel sometimes they are unfair. It is one step on the way to getting college done. The advantages of the Ednet program are really helpful.

118 Morgan HS	1	5	6	4	5	5	5	5	4	4	6	4.90	The instructor is really good about helping the students understand each concept. He gives us enough time to ask questions to check our understanding. He doesn't have quizzes in between the tests to help us see how much of the material we have retained. If they are interested in math, this course is taught well and is challenging. They are more challenging and engaging than high school classes.
2006-2007	2	4	6	5	5	4	5	5	6	5	5	5.00	13. Because you learn a lot and can continue your math. So I can get my Associates degree by time I graduate.
MATH 1060	3	5	5	6	4	5	4	5	5	6	5	5.00	I really like how the professor teaches us exactly what he want us to know. I don't like how we cannot get extra help, like not being able to go ask the professor and have him show you what to do. Because even though it is not required, if a student wants to go into business, then this is a great class. Because I would want to get my Associates degree. Good Job!!
